

## FREEDOM FROM REPROCESSING

## DISPOSABLE ACCESSORIES FOR ESOPHAGEAL DILATORS

Repeated use and reprocessing of reusable guidewires and cleaning brushes can result in worn, frayed, bent or other wise damaged devices.

The use of disposable guidewires and disposable cleaning brushes can reduce the risk of device damage as well as the potential cross-contamination from using reprocessed accessories with reusable polyvinyl dilator systems.

The Single-Use Marked Spring Tip Guidewire and Dilator Cleaning Brush are for use with American and Savary dilators.

## SPECIFICATIONS

REF	Diameter Of Spring Soft (mm)	Working Length (mm)	Diameter Of Guide Wire Rod (mm)	Packaging
Marked Spring Tip Guidewire				8
